Professor/Associate Professor: Engineering

Introduction

The University of Johannesburg (UJ) is a vibrant and cosmopolitan university, anchored in Africa and driven by a powerful strategy focused on attaining global excellence and stature (GES). With an emphasis on independent thinking, sustainable development and strategic partnerships, UJ is an international university of choice. The University is guided by the Vice-Chancellor's vision of "Positioning UJ in the Fourth Industrial Revolution (4IR) in the context of the changing social, political and economic fortunes of Africa".

Job description

- The Faculty of Engineering and the Built Environment (FEBE) is actively recruiting for an Associate Professor/Professor who will also be a Vice-Dean Research, Innovation and Internationalisation (for 3 years) to assist the Executive Dean of FEBE in the fulfilment of his duties and to head up this exciting and important portfolio.

Responsibilities:

- Conduct extensive activities to support and promote fourth industrial revolution initiatives;
- Teaching and administration responsibilities;
- Multidisciplinary teaching activities through collaboration with other faculties;
- Postgraduate education;
- Supervision of postgraduate students at masters and doctoral level;
- Develop the postgraduate education - research - innovation nexus, through mentoring of postgraduate students, yielding, through the Technology Transfer Office, to a culture of technology start-ups;
- Supervision and partnership with postdoctoral research fellows;
- Conduct leading research in areas aligned to 4IR producing recognised research outputs (ISI-/IBSS-listed journals, book chapters, books);
- Advance the discipline through community engagement and active participation in voluntary associations / professional societies;
- The Vice-Dean Research, Innovation and Internationalisation is primarily responsible for FEBE research and its postgraduate portfolio, the internationalisation thereof, as well as the transfer of knowledge into the undergraduate domain in collaboration with the Vice Dean: Teaching and Learning. The portfolio includes PG Diplomas, Honours, Masters and Doctoral

programmes.

- FEBE Vice-Deans function in accordance with powers and responsibilities delegated by the Executive Dean according their Performance Agreements. These delegations are grounded on the Dean's consultation with the FEBE Leadership Team to ensure that Vice Deans' portfolios cover the FEBE Strategic Plan.
- Vice-Deans fulfil duties and responsibilities within FEBE and do not fulfil executive functions external to FEBE. The Vice-Dean may from time to time represent the Executive Dean.

Minimum Requirements:

- PhD and experience in areas aligned to the fourth industrial revolution e.g. Data Analytics, Artificial Intelligence, Cloud Computing, product development etc.
- At least five years' experience in the academic environment.

Recommendations:

- Registered professional engineer or eligibility for registration as a professional engineer with the Engineering Council of South Africa (ECSA).
- Researchers who are rated by the National Research Foundation (South Africa) or substantially at the level of researchers who are unequivocally recognised by their peers as leading international scholars in their field for the high quality and impact of their recent research outputs.
- Strong commitment to teaching, research and innovation;

Competencies and Behavioural Attributes:

- Strong interpersonal relationships;
- Analytical thinking;
- Strong academic character;
- Demonstrated leadership skills;
- Excellent communication skills;
- HR ENQUIRIES: Ms N Ntsimane on nombulelon@uj.ac.za ENQUIRIES REGARDING THE JOB CONTENT: -Prof Mashao Executive Dean at dmashao@uj.ac.za
