IT Developer / IT Quality Assurance

Key figure of the invitation to tender: 9764

In the team "Internet Domain Administration" of the Central Computer Science Service of the University of Vienna, a position as IT-System-Specialist will be filled. The position is limited to 6 months for the time being, a takeover in an indefinite employment relationship is possible and desirable.

Software development in our environment means a wide range of tasks and exciting topics. Thus, the .AT domain registry, ie the database application that is needed for the domain allocation in Austria, operated by us and developed software for it. In addition, we look after a worldwide distributed name server structure, provide services in the Austrian science network AConet and develop special software for our tasks.

The focus of this advertised position lies in the cooperation in the development of software in the area of the .AT domain registry.

Existing systems need to be constantly further developed and adapted to new technologies. That means an exciting environment and ongoing challenges in a dedicated team. Their expertise is in demand and you can bring in new ideas to jointly raise our technical level.

Classification according to collective agreement: §54 VwGr. IIIb In addition, eligible work experience can determine the classification and thus the remuneration.

Your tasks:

The field of activity includes primarily the development of software in the area of the .AT domain registry.

This means:

- Implementation and design of software solutions
- Creation of concepts in the team
- Strategic development and implementation of new technologies
- Participation in cross-cutting projects

Professional requirements:

- Excellent programming skills (preferably Perl)
- Experience in software design and object-oriented Methods
- Experience with databases, especially PostgreSQL
- Experience in running Linux machines (preferably Debian)
- Relevant HTL + 1 year IT practice or
- AHS + 1.5 years IT practice or
- 2 years IT practice

Personal Requirements:

- Careful and structured work
- High degree of reliability and initiative in a responsible working environment
- Independent and responsible action
- Stress resistance and readiness for occasional night and weekend work to rectify faults and perform maintenance
- Teamwork and learning ability
- The desire to si to familiarize yourself with new topics
- For male applicants: completed presence or civil service
- Work permit (EU)

Benefits:

- Flexible working hours
- Good public transport
- Home office
- Health measures
- High quality work equipment

Your application: We look forward to receiving your application with a letter of motivation Key figure 9764 , which you prefer to submit to us by 30.09.2019 through our Job Center (<http://jobcenter.univie.ac.at/>). For more information about the advertised position, please contact Winkler, Gerhard + 43-1-4277-14035.

The University of Vienna operates an anti-discriminatory employment policy and emphasizes equal opportunity and diversity (<http://diversity.univie.ac.at/>). In particular, an increase in the proportion of women in management positions and in scientific staff is sought. Women are given priority with equal qualifications.
