Associate Professor in Management Information Systems (Digital transformation, intelligence and emerging technologies)

Institut Mines-Télécom Business School (Institut Mines-Telecom). Evry (Paris Area, France)

Institut Mines-Telecom Business School is a public business school in the French Grandes Ecoles tradition. Founded in 1979, the School reports to the Ministry of Economy. For over 30 years, the School has been recognized for its expertise in management, innovation and entrepreneurship, ethics, and information and communication technologies.

It trains future managers and entrepreneurs to be responsible, innovative and open to the world around them and to lead their organizations in the major transitions of tomorrow's society: digitized economy, energy and ecological transition, new business models, industry of the future.

Institut Mines-Telecom Business School is the business school of IMT (Mines-Telecom Institute), the main French technology institute dedicated to higher education, research and innovation in engineering and management. Institut Mines-Telecom Business School has, since its creation, shared its **campus** with its sister engineering school, Telecom SudParis, creating a unique synergy in France. Institut Mines-Telecom Business School has also an on-campus **business incubator** for young innovative companies. This incubator is open to students, alumni and other entrepreneurs.

The School is among the top 10 management schools in France when comparing the level of salaries earned upon graduation. It proposes a complete program offering, from undergraduate to doctorate, all meeting international standards.

Institut Mines-Telecom Business School is **AACSB** and **AMBA accredited**.

More information about the School, its values and mission can be found at <https://www.imt-bs.eu/en>

JOB REQUIREMENTS

Institut Mines-Télécom Business School is seeking one highly qualified candidate with a demonstrated experience in teaching (at the undergraduate and graduate levels) and a research experience in **Management Information Systems (Digital transformation, intelligence and emerging technologies)**. The candidate will conduct research activities within the laboratory, jointly with the Evry Val-d'Essonne University - UEVE, LITEM (EA 7363) :

- Axis 1: "Digital, praxis and responsibility"

The ideal candidate will have a PhD, publications in leading scientific journals in the field of Management Information Systems, and will have demonstrated strong research potential. An ongoing HDR (Habilitation degree for supervising doctoral candidates) project would be a good asset. He or she must have good teaching experience and be able to teach in both French and English.

APPLICATIONS

Please submit your application materials (letter of motivation, curriculum vitae, the names and addresses of two qualified persons, file or URL to access the text of the main publications and recent teaching evaluations, a work note setting out the candidate's past activities in teaching and research) via the URL :
